

Wikipedia

The **Highland Christian Church** is a historic church at 102 E. Main Street in Highland, Kansas. It was built in 1904 and added to the National Register in 2007.

It is a two-story building, veneered with red brick on its first story. Buff brick is used at windows and as quoins at corners. It has a three-story square steeple. It was deemed "significant as an example of the Shingle Style adapted to a church building" and "because prominent local builder Ely Saunders oversaw both phases of construction."
